CERTIFICATE COURSE IN NURSERY AND GARDENING

Introduction

Nursery is place of agriculture where plants propagate, grown and sold out to home garden, Terrace garden, landscape garden, large garden and commercial purpose. Plants are commonly are propagate by using different plants parts like cuttings, seeds, bubs, tuber, rhizome and other vegetative parts. In nursery plants grow and maintain a large number of plants per unit area. Nursery grown plants are ornamental, medicinal, fruits and some vegetable plants. Gardening is the practice of growing and cultivating of ornamental plants for their flowers and decoration. The nursery improves germination and colonization, saves time, space, labor and facilitates maintenance.

Gardening is an ancient practice of cultivating several types of plants in the house yard, landscape, small garden, terrace garden or the roof. Gardening is art or science of arranging, taking care of plants in surroundings and implementing the knowledge of plant cultivation. It involves a wide range of activities and skills related to the care, maintenance, and nurturing of plants for various purposes,. Depending on the individual, gardening may be only one type of plant growth or may include multiple plants in mixed seedlings. Nursery and Gardening is a profitable business because of its easy cultivation, low maintenance cost and easy for processing. Students can earn a certificate in Nursery and Gardening, which provides specialized knowledge about Nursery and Gardening.

PRINCIPAL
Nutan Mahavidyalaya
SELU, Dist. Parbhani

Aims and objective of Nursery and Gardening

- ❖ To provide basic knowledge in ornamental, medicinal, vegetables plants.
- ❖ To provide practical experience on cultivation of plants.
- ❖ To impart basic knowledge and develop skills about propagating different types of plants by seed, cuttings, budding and grafting, separation, division, layering as well as micro-propagation in commercially viable way
- ❖ To provide basic knowledge about tools.
- ❖ To enhance entrepreneurial skills for the students.
- ❖ To develop technical skills in nursery and gardening.
- ❖ To promote self employment.

Learning out come

- ❖ Student will identify edible and non edible mushroom.
- ❖ Understand the different species of mushroom and its importance.
- ❖ Students learn nutritive value of mushroom.
- ❖ Students gain the knowledge of harvesting and post harvesting process of mushroom.
- ❖ Understand the various steps involved in the cultivation and it's maintenance.
- ❖ To become an entrepreneur.
- ❖ Utilization of agro waste for mushroom cultivation.

Teaching methodologies

- Total hours: 35
- Attendance: 80% of attendance is compulsory.
- Exam pattern: offline.

SELU, Dist. Parbhani

Syllabus

Unit-I

- History and introduction of nursery and gardening.
- Opportunities in the current scenario.
- Basic requirement of nursery and gardening.
- Types of nursery.

Unit-II

- Tool and Techniques of nursery.
- Selection of sites for nursery.
- Infrastructure for nursery.
- Potting mixture preparation.
- Different method of plant propagation.
- Factor affecting on nursery.

Unit-III

- Definition scope, objectives of gardening.
- types of gardening.
- Tool and Techniques of gardening.
- Plant material and designing.
- Irrigation methods.
- Factors affecting on gardening.

Unit-IV

- .Common garden plants and their Propagation and cultivation
1- Duranta 2-Rose 3-Table pam 4-cycas 5-Thuja 6-Lawn 7-Hibiscus 8-Bottle palm 9-powder puff 10-fishtail palm 11-foxtail palm, 12-Bottle palm 13-Ixora, 14-Spider lily.
- Manure applications
- Pest management strategies.
